*Providing Fire and Mold Resistance Globally*

# ORIGINAL FABRIC FIRE GARD

## PROVIDING FIRE AND MOLD PROTECTION SOLUTIONS

### **NO-BURN® ORIGINAL / NO-BURN® ORIGINAL Mih**

No-Burn® Original is a green, eco-friendly product that can be used to achieve fire resistance on wooden furniture, mantels, banisters, cabinets, crafts, various hobbies, interior and exterior wood logs and wood shake roofs. No-Burn® Original has low VOC's (Volatile Organic Compounds), is odorless, non-toxic, non-carcinogenic and will not leave a residue. No-Burn® Original Mih provides dual protection in one application.

No-Burn® Original is UL Classified, carries a Class A fire rating per ASTM E-84 and meets the requirements of UL 723.

### **NO-BURN® FABRIC FIRE GARD**

Interior furnishings are the number one contributing factor to the swift spread of fire and smoke within a home. In most cases, it is the toxic smoke that kills the occupants, not the fire itself. Interior furnishings also contribute to the phenomenon known as "flashover," in which the air within a structure becomes superheated, causing everything within the vicinity of the fire to explode into flames. It is not survivable by occupants, and dangerous to protected firefighters.

No-Burn® Fabric Fire Gard, a clear and odorless liquid, was developed to help alleviate this problem. This non-toxic, non-carcinogenic and environmentally safe fire retardant is applied directly to furniture fabrics and other interior furnishings. Not only can No-Burn® Fabric Fire Gard slow down the fire, but in many cases it will not allow the interior furnishings to ignite at all, thereby slowing or eliminating the spread of an existing fire. Fabric Fire Gard can also be applied to stuffed toys, crafts, clothing, holiday decorations, costumes, potholders and many other household items. **NOT FOR USE ON LEATHER.**

No-Burn® Fabric Fire Gard, a green and eco-friendly product has received a Class A Fire Rating over carpet from Omega Point Laboratories per ASTM E-84. Fabric Fire Gard is registered with the California State Fire Marshal per California Code of Regulations and meets the requirements of NFPA 701.

## **NO-BURN® ORIGINAL**

### **TEST RESULTS**

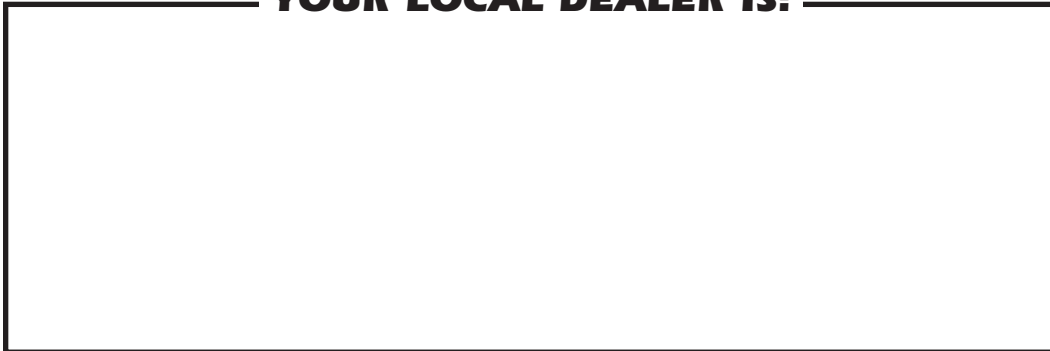

No-Burn® Original is classified with a Class A rating under ASTM E-84, in accordance with ICC-ES Evaluation Report # ESR-1838. No-Burn® Original is UL Classified and meets the requirements of UL 723.

## **NO-BURN® FABRIC FIRE GARD**

### **TEST RESULTS**
