Onity Magnetic Stripe Electronic Lock Features

- ❑ Non-volatile memory records the last 500 lock openings—including date, time and card used
- ❑ Programmable for length of time door remains open, and automatic closing.
- ❑ Low battery indicator lights alert hotel staff without disturbing guest.
- ❑ Programmable for the “office-mode” function (free passage).
- ❑ Corrosion-resistant case for normal atmospheric conditions.
- ❑ Lock ensures accuracy by reading the card twice; once during insertion and once during removal.
- ❑ Each new guest card overrides any previous guest card, preventing re-entry.

Designed for small to medium-size properties of up to 500 rooms, the Onity HT22 offers a full array of features, including direct PMS interface, without requiring a PC. That means it will take up less space at your front desk, while still giving you the features you need.

The Onity HT22 provides a smooth and efficient check-in, giving your guest's stay a great start. Fully-featured and easy to use, the HT22 is a powerful management system within a compact encoding unit. With the unique Insertion Technology encoding offered by the Onity manual insertion encoder, errors caused by improper encoding are reduced to virtually zero. The HT22 system operates with the Onity HT24 magnetic stripe electronic lock. And Onity operates 24 hours a day, 365 days a year to ensure you'll get the support you need, when you need it. All Onity products are backed by Onity's warranty and our commitment to provide the highest standards of service for our customers.
