

FINAL FORMS

GORDON
INTERIOR SPECIALTIES DIVISION

DAVID McDAVID HONDA
Frisco, TX

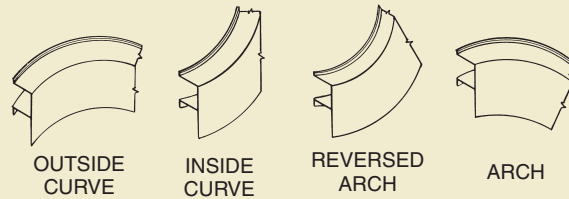

FINAL FORMS

- Fabricated from extruded aluminum
- Trims provide solutions for drywall, plaster and acoustical applications
- Final Forms I – most parts are pre-coated a paintable or clear anodized finish for field painting
- Final Forms II – most parts are provided in a clear anodized finish
- Factory painting is available
- Stronger and less vulnerable to damage than alternative products
- Trims install straight and true
- Quick and easy to install
- New trims can be created to meet your design requirements
- Factory welded intersections, curving, venting, and custom mitering are available
- Quick ship program – most profiles will ship within 24 hours of ordering
- Largest manufacturer – over 450 parts in stock

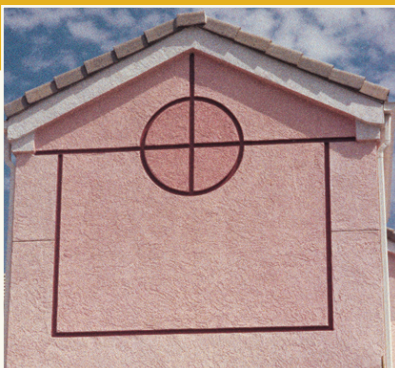

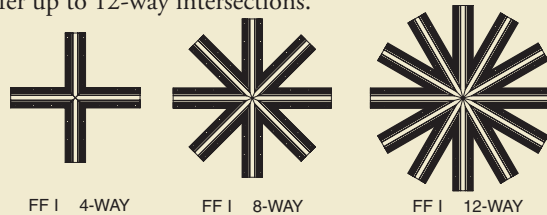

FACTORY CURVING

Extruded aluminum drywall or plaster trims may be factory curved to virtually any radius for a variety of applications.

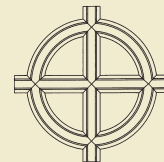

INTERSECTIONS

Gordon provides the most economical solutions for your various intersection requirements. Parts are factory mitered and welded for a precise fit. We offer up to 12-way intersections.

CUSTOM FABRICATION

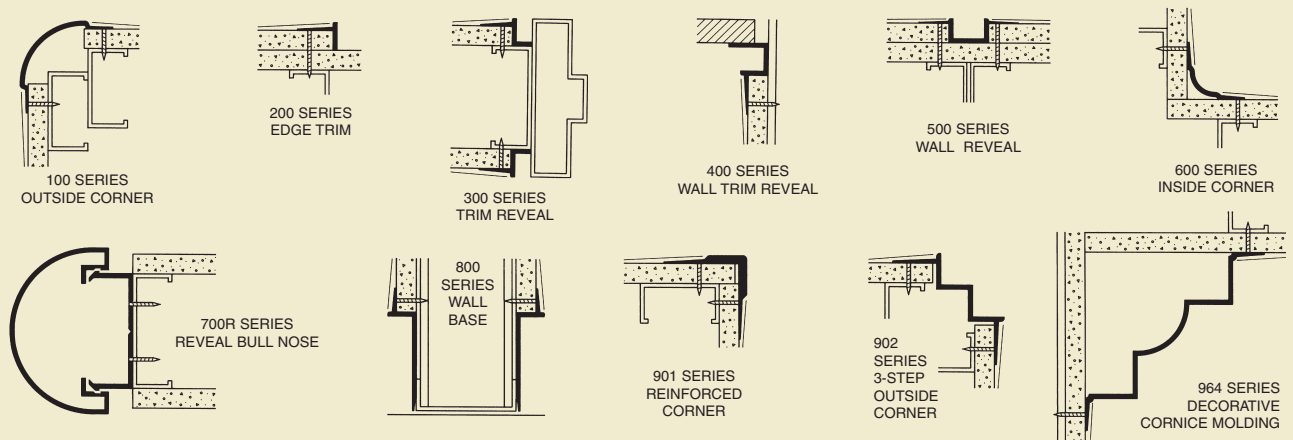

Gordon is the leader in providing custom fabrication to meet the needs of any designer. We also offer unlimited finishing options, as well as custom curved materials and custom extrusions.

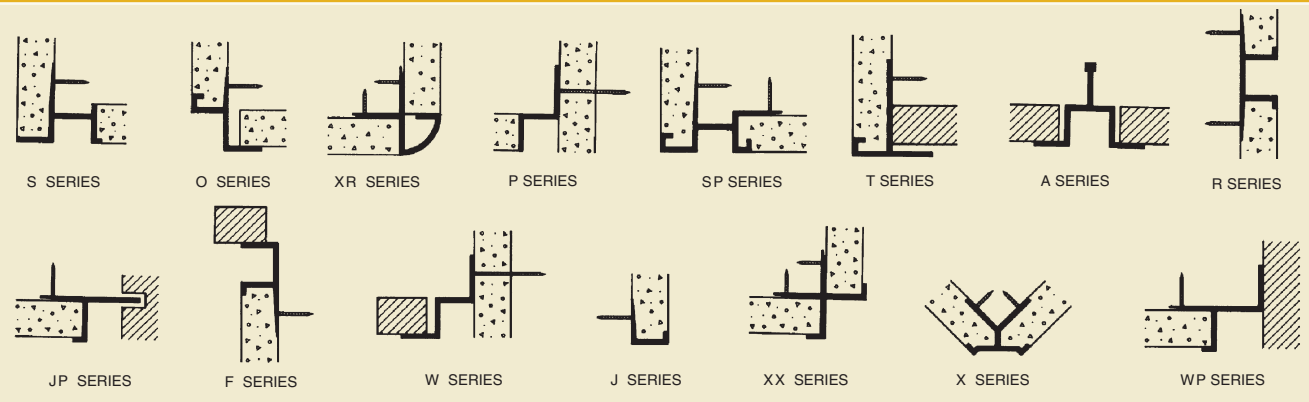

Intersection Detail

FINAL FORMS I - DRYWALL TRIMS

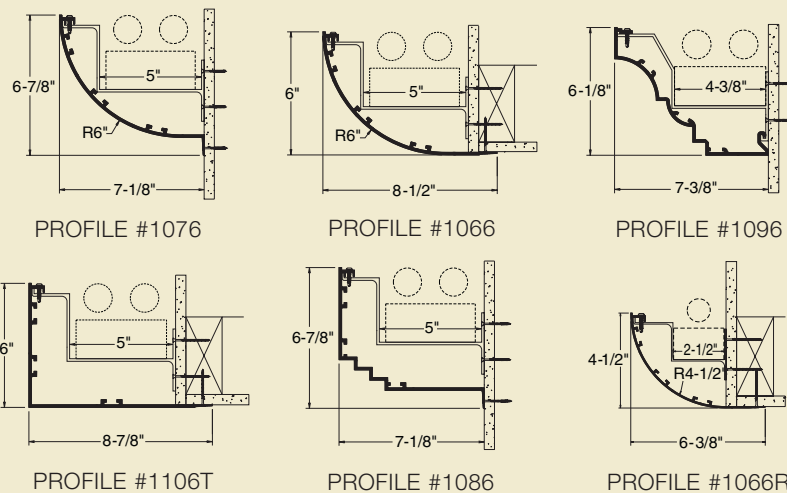

FINAL FORMS II - PLASTER TRIMS

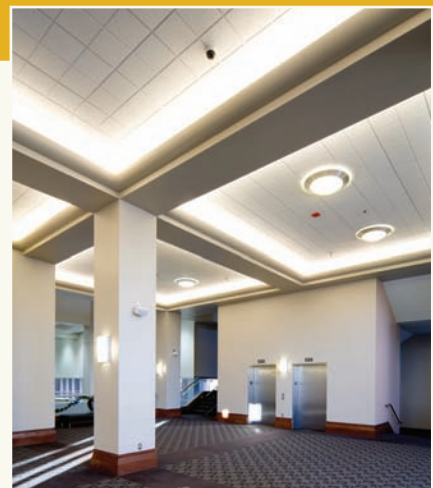

LIGHT COVES

Extruded aluminum light coves in stepped or radiused shapes install faster and are more economical than drywall or fiberglass reinforced gypsum.

Shown is a small sample of our profiles, please visit our website for more information.
