## **LEEDing the way for organizations to maximize sustainability**

---

### ► **Converting old materials to new**

At **Flooring Recycled, LLC**, we can help you make sure that the old flooring doesn't end up in the landfill, and we will provide a certificate from the manufacturer acknowledging your efforts to recycle. We work directly with the manufacturing companies to properly qualify, sort, separate and package the old flooring materials to insure that it will meet the requirements for producing quality recycled product.

### ► **Earn additional LEED Points**

It takes considerable efforts to recycle construction waste, but we all know it's the right thing to do. For these efforts you can earn additional LEED points in order to maximize the performance of your LEED project.

### ► **Our service helps your project's LEED Score**

LEED credit: MRc2

Credit Name: Construction Waste management

Possible Points: 1-2 points
