# DECORATIVE SEALERS

One of the fastest growing segments of the construction industry is decorative concrete. From exciting new concrete projects to stunning renovations, decorative concrete has become an attractive option. Stamped concrete, acid stains, dyes, exposed aggregate – the styles of decorative concrete are endless. To make sure your new decorative concrete project has a look that lasts, use the family of **W. R. MEADOWS** decorative sealers.

*Your style is decorative concrete creativity. Our substance is premium-grade concrete protection. Together – a winning combination.*

Our line features sealers, evaporation retardants, curing and sealing compounds, additives and surface retarders – for every aspect of decorative concrete protection. Our products are supported by a large distribution network and the MEADOWS experience factor – over 80 years of quality, service and integrity.

## Our GREEN LINE, GreenSpec and OTC Products Signify Environmentally Safe, Green Building Performance

### GREEN LINE

For over 25 years, **W. R. MEADOWS** has been formulating and manufacturing environmentally friendly products. Our **GREEN LINE** brand offers water-based formulations with low VOC contents, signifying environmentally safe products. Please request our **GREEN LINE** brochure for more information.

### GREENSPEC

Several of our products have been listed in the **GreenSpec** directory, a top directory of green building products. Only the top 5-10% of green building products are listed in the directory, and **W. R. MEADOWS** is proud to have several products listed, including **DECK-O-SHIELD** and **TOP-STOP**.

### OTC PRODUCTS

**CS-309-OTC** and **CS-309-25 OTC** have been formulated for the Northeast U.S. to meet their demanding restrictions on VOC content. However, these products may also be used throughout the world wherever a low VOC content, solvent-based product is necessary.

### LEED INFORMATION

The use of **W. R. MEADOWS** products in green building can help the project earn LEED credits to qualify for LEED certification. LEED certification in commercial projects is in demand. However, LEED certification is now becoming more popular in residential building, where most decorative concrete projects are appearing. The use of our sealers can help contribute to the following LEED credits:

- EQ Credit 4.2: Low-Emitting Materials: Paints & Coatings
- MR Credit 5.1: Regional Materials: 10% Extracted, Processed & Manufactured Regionally
- MR Credit 5.2: Regional Materials: 20% Extracted, Processed & Manufactured Regionally

## The Art of Polished Concrete ... INDUROSHINE

Polished concrete floors are becoming a popular option for high sheen, low maintenance, sustainable flooring. The **MEADOWS** system, **INDUROSHINE**, combines green grinding and polishing equipment from VIC International with **GreenSpec** listed **LIQUI-HARD** concrete densifier and hardener from **MEADOWS**. Once the polishing process is complete, an application of **BELLATRIX** premium concrete enhancer from **W. R. MEADOWS** will provide enhanced shine and increased protection. For more information, request our **INDUROSHINE** brochure.

## Visit Our Website for More Detailed Information

Our website features detailed information on all these products and more, including MSDS documents, project profiles and additional LEED information. We also include full details on our **GREEN LINE**, **GreenSpec** listed products and VOC contents. You can also request our other brochures and catalogs.
