Letter Perfect

If you have one sign for your business or organization, or need several for multiple locations, you want consistency and durability to accompany your basic design. Wausau Tile provides the total package. It's one stop shopping at its best!

Once you have determined the basic sign design, it's time to choose the letters that best fit your needs. There are hundreds of fonts, sizes, colors and shapes to choose from. You can call on our years of experience to assist you.

If you desire a sign that displays your message 24 hours a day, there is an excellent selection of **Channel** letters to choose from.

You have a wide range of choices, from traditional to ornamental and script, with **Formed Plastic** lettering. Each of these reflects light in a unique way, because they are molded with flat, round, prismatic and sculpted faces.

The rich, quality touch provided by **Flat Cut Metal** letters will give your sign a look of soundness and stability. The choice of aluminum, bronze, copper and steel, combined with 22 color options and 97 fonts, may seem overwhelming. Not to worry, we will assist you every step of the way.

If you are looking for beautiful letters that are guaranteed for life, choose from the 97 fonts and 45 colors available in the **Acrylic** line. You can't go wrong.

You may prefer the **Cast Metal** look for your unique sign or signs. Brilliant colors, dazzling shines, with a natural or antiquated metal look are among the choices. Let us assist you in designing your special sign.

Regardless of the number of signs you need, from one to 1,000, Wausau Tile is ready to work with you to make your sign image the best it can be.

Sign Letters Available in:

Cast-in/Embossed

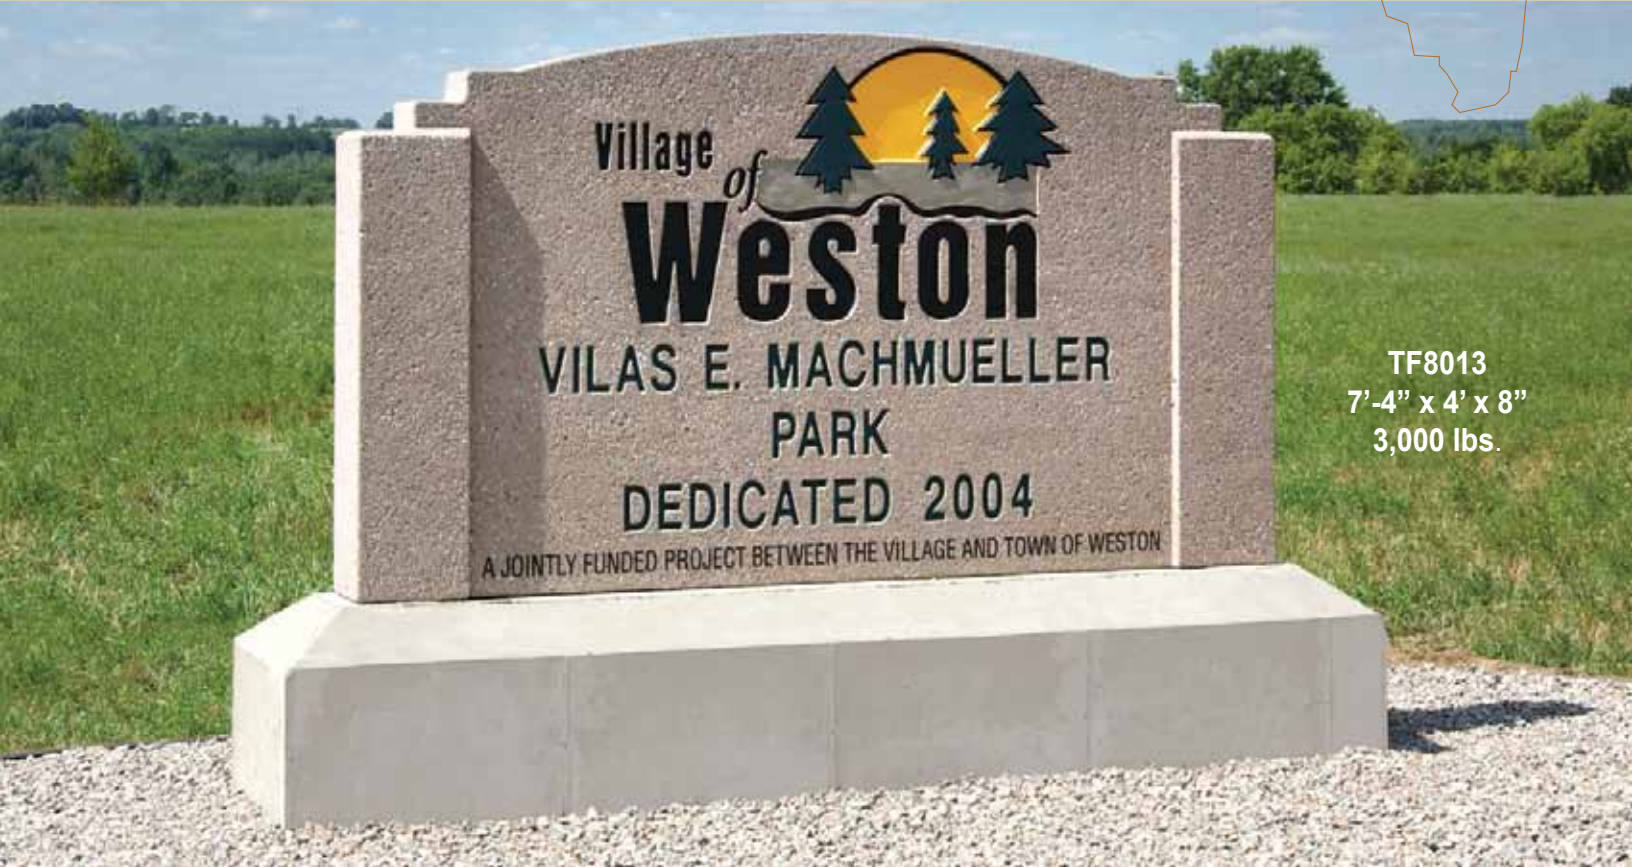

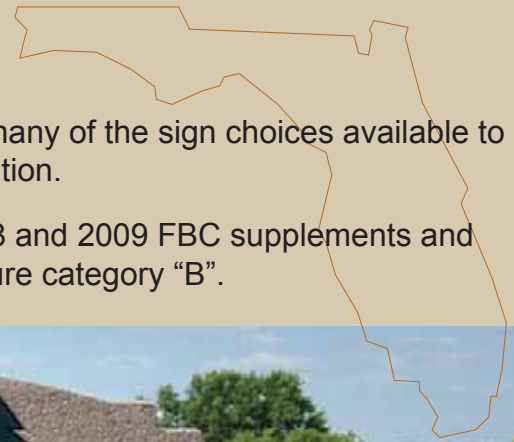

Either cast in or embossed, these attractive letters are favorites of our customers all around the country. They are as deep as 3/4" and feature all the popular fonts. Better still, they are custom colored to meet your wishes. You can look to us to help you put it all together.

Specifications subject to change without notice.

Wind Load Certified

You can rely on us to provide you with wind load certification on many of the sign choices available to you. Please ask your Wausau Tile representative for that information.

This sign is certified per Florida Building Code 2007 with the 2008 and 2009 FBC supplements and ASCE 7-05. It is able to withstand windspeed of 150 MPH exposure category "B".

TF8013
7'-4" x 4' x 8"
3,000 lbs.

Installation

With the assistance of Wausau Transit, our own fleet of trucks, we can help provide placement service for your signage.

Our own fleet of crane-equipped trucks will provide placement (special limitations apply).

Threaded rods provide the connection with the construction and the footings constructed prior to delivery – ask about our available sign bases.

Prior to sign placement, utilize the provided sign setting kit, including mortar, trowel and mixing pail to fill preformed pockets in the footings.

Allow our crane to set the sign onto the footings.

Following placement, secure the sign, allowing the mortar to harden.
