## Estimating Tools Available

## MeansCostWorks.com

*The ultimate online cost estimating tools*

MeansCostWorks.com provides fast and accurate construction estimating using the latest construction cost data available from RSMeans—making it an invaluable tool for construction, engineering and design professionals.

MeansCostWorks.com provides 24-7 online access to the RSMeans database of construction and square foot costs, offering all 85,000 RSMeans unit prices, 25,000 building assemblies and 42,000 facilities repair and remodeling costs covering every category of construction, including commercial, facilities, civil and residential.

You can estimate with open shop or union labor costs, SI Metric or U.S. Customary units, traditional 16-division or new 50-division CSI format. Costs can be adjusted automatically for local materials and labor cost conditions.

Streamline your workflow—you can customize, save, preview, create reports, export data to Excel and share your estimates online with other project team members.

MeansCostWorks.com now features two subscription options to best meet your estimating needs: the Construction Cost Estimator and the Square Foot Estimator.

### Construction Cost Estimator

- Online database of RSMeans' 85,000 unit costs, 25,000 assemblies and 42,000 facilities
- Current cost data from RSMeans—you choose which data release you want to use
- Use your own unit cost lines or clone RSMeans' lines to compile a fully integrated cost database
- Use union or open shop labor rates localized to 900 locations in the US and Canada
- Online collaboration with your project team
- Modify or update previous estimates
- Export data to Excel, attach to emails and print estimates
- Annual subscription gives you 12-month guaranteed access to industry standard RSMeans cost data. There are no limits to the number of estimates you can create

### Square Foot Estimator

- Online database of RSMeans' commercial building models and systems
- Current cost data from RSMeans—you choose which data release you want to use
- Use union or open shop labor rates localized to 900 locations in the US and Canada
- Online collaboration with your project team
- Modify or update previous estimates
- Export data to Excel, attach to emails and print estimates
- Annual subscription gives you 12-month guaranteed access to industry standard RSMeans cost data. There are no limits to the number of estimates you can create
